

DEVELOPMENT / PLANNING / ENTITLEMENTS

# Mather Sports Center

SACRAMENTO COUNTY, CALIFORNIA - USA

*RCH Group is acting as the Master Developer for the Center as well as providing planning, design, entitlement, environmental and permitting services. Individual projects within the Center will be designed and developed by selected development partners.*

RCH Group, in conjunction with West Coast Championship Sports, has secured the right from Sacramento County to develop a “Sports Center” on Sites 30, 31 and 32 at Mather Field; a decommissioned Air Force base adjacent to Rancho Cordova.

The concept planned for the Sports Center is similar to an Olympic Village with a support “core” complex surrounded by a variety of sports fields and other facilities providing opportunities for both practice and tournament play. Planned outdoor sport facilities include baseball, softball, soccer, football, rugby, lacrosse, basketball and track, among others.

Indoor facilities will accommodate boxing, wrestling, volleyball, gymnastics, and other arena focused events. Facilities will be professionally managed for use by organized leagues, community groups and professional sports groups.

Tying the whole complex together will be a mixed-use village (support “core”) consisting of an events complex anchored by a multi-use stadium, short term full board living environments, themed retail / restaurants, entertainment venues and public open space.
